

MOVING THE FIELDS OF INJURY & VIOLENCE PREVENTION FORWARD

since...

1997

Firearm Injury
Center at Penn

2006

Philadelphia Collaborative
Violence Prevention Center

2015

PENN'S HUB FOR INJURY & VIOLENCE
RESEARCH, PRACTICE, AND POLICY

Benefits of being affiliated with the Center

- Tap into a **collaborative network** of **diverse & interdisciplinary** scientists and practitioners
- Stay up-to-date on the latest science, events, and **career and funding opportunities** through our monthly newsletter
- Access **exclusive resources** like statistical consultation and dissemination support
- Increase the **recognition of your work** - list your Senior Scholar or Trainee affiliation on your CV, see your work promoted through our website, newsletter, and social media channels

Penn Injury Science Center

STOP IT • FIX IT • LIVE ON

The Penn Injury Science Center is one of nine CDC-funded Injury Control Research Centers, tasked with advancing research, training, & outreach in the field of injury. Our slogan - **Stop It, Fix It, Live On** - symbolizes the commitment to **primary, secondary, and tertiary prevention**.

What does it mean to be affiliated?

Participate in Center activities, like the monthly Injury Science Incubator meetings, the Trainee Learning Lab, or Core Research Projects

Contribute to our mission of advancing the research, training, and outreach (translation) of injury prevention and recovery

Report your annual achievements so we can demonstrate our Center's impact to the CDC

How to get engaged...

Learn more about our Center at penninjuryscience.org

Contact us through the website to introduce yourself & how you'd like to get involved
